## 2021 STAR EDUCATOR CONFERENCE

Professional Educators of Iowa

*Celebrating 40 years!*

~ 1981-2021 ~

Friday, August 6, 2021  
Windsor Heights Community Center  
6900 School Street, Windsor Heights, IA

**Friday, August 6th, 8:00 am - 4:00 pm**

### *Program includes:*

#### **Compassion Fatigue Affecting Educators with Joel Fry**

#### **com·pas·sion fa·tigue**

/kəm 'paSHən fə 'tēg/

~ physical, emotional, and spiritual fatigue or exhaustion that takes over a person and causes a decline in his or her ability to experience joy or to feel and care for others;  
~ a state of tension and preoccupation with the individual or cumulative trauma of students

You will not want to miss our morning session on Compassion Fatigue! What does it look like? Who does it affect?

Compassion fatigue is often discussed but rarely taken seriously. Participants will be encouraged to consider needs of self as they look at their effectiveness in the educational setting. This session will engage participants in exploration of their own levels of compassion fatigue through the following objectives:

- Identification of strategies and interventions to maintain staff effectiveness in educational settings.
- Identification of strategies and interventions to effectively maintain self in educational settings.
- Recognition of personal indicators that signal the need for a break from performing educational services.

#### **Increasing Empathy and Energy Through the Model of the Enneagram with Barb Ranck**

In this session, you will learn why people react differently to the same situation. It's less about your title or how much content knowledge you possess. It's more about your personal values.

This session will shed light on personal values for 9 different Enneagram types, and how each is naturally triggered. As you see yourself in one (or more) of the types, you will become more aware of why YOU react the way you do, and why OTHERS may react differently. In less than an hour, you will come to understand it's not about you - and it's all about you.

As participants gain more self-awareness of their own - and others' - triggers, it will ultimately lead to increased compassion, personal energy, and improved collaboration.

## Ethical Educators with Terry Gladfelter and Bryan Stearns

June 17-18, 2021, or July 19-20, 2021

With the increase in litigation and risk, it is important for educators to know the legal and ethical boundaries while working with students. The National Association of State Directors of Teacher Education and Certification (NASDTEC), Board of Educational Examiners (BOEE), the Department of Education (DOE), Professional Educators of Iowa (PEI), and individual school districts all have polices which need to be understood, in order to keep oneself from litigation. Case studies and interactive solutions make this a relevant course for all engaged in education.
